## Warehousing and Storage Solutions

Dheeraj Pandey takes great pride in offering appropriate and definitive storage solutions to his clients. We present a multitude of storage options. As warehousing could also be an important aspect of a supply chain all his services promise great flexibility while you're trying to cope up with the seasonal demands. He also provides unique and customized warehousing solutions. Whether you'd wish to refrigerate perishable goods or need a secured environment for precious goods Dheerajpanday.com offers it all.

With the advent of globalization, the level of competition among companies to acquire best finished goods and components at lower cost has also increased. Several company both within India and abroad opt for global product sourcing for acquiring bulk goods and components at low cost directly from producers & manufacturers. This in turn enables the buyers to dominate the domestic market scenario with best quality produces obtained by sourcing from China and other neighboring countries. The sourcing of products from foreign countries especially from China to India involves several legal procedures and intricate Export and Import formalities that require active participation of the customs

## Market Based Chinese Format

Dheeraj Pandey has emerged as a reliable Product Sourcing Agent from foreign countries to India. He highly regards maintaining long term relationships with the clients to encourage best Product sourcing transactions across the globe. When any Indian trader or firm is in search of reliable information and products from international markets, he makes use of the services of a product sourcing for efficiently clearing the goods with the customs.

He has a plan to introduce the Chinese format of business as the distribution channels may be somewhat longer and more complex than the United States. He plans to help find market for luxury goods to retailers to find a robust market in China's big cities, but these retailers are also opening stores in the tier-two cities. Logistics for tier-two and tier-three cities may not be as sophisticated and may require unique delivery solutions. In large cities, multi-stop deliveries to several retail stores are coordinated by a retail logistics company. In a tier-three city, the retailer may have to wait a week or more for a single store delivery from the airport that is passed from trucker to delivery cart. Dheeraj Pandey helps in introducing business which can possible by opening new factories based on Chinese Format.
